## SERVICE HIGHLIGHTS

**Wealth management**  
We launched a management consulting service to create a personal asset management plan based on the client's financial goals and circumstances.

**Blue Sky Project**  
The Blue Sky project tokenized the real estate in the "A" class area of the city center based on blockchain technology, allowing for partial ownership from anywhere in the world for rental income and value growth.

**Intelligent investor**  
Stock market savings services have grown rapidly in recent years and can offer high inflation-beating returns over the long term.
